

I would like to write in response to the LPFM broadcast stations and how it may eliminate a much needed station currently being served through a translator FM service in my area.

I am greatly concerned that myself and my community would no longer be able to receive the K-LOVE (89.7) station. This station provides a positive and encouraging spiritual message to myself and my community. As this is a nonprofit station that promotes a positive moral message, the loss of this station would be a great loss to myself and my community. K-LOVE provides 24 hr. prayer and pastoral assistance for those in need. In addition, it joins in with communities around the world to support social service programs such as hospice, adoption, and homeless shelters. K-LOVE provides a much needed message of hope and love, promoting strong moral beliefs and encourages audiences of all ages. Without this station, thousands of people in my community would not receive this message. We live in a frightening and chaotic world, without K-LOVE, a glimmer of hope and light would be extinguished. PLEASE DO NOT LET THIS HAPPEN. This radio station changes lives with their message and services!
